

LEADERS OF AMERICA SALUTE THE FLAG ON BIRTHDAY OF "STAR SPANGLED BANNER"

THREE BODIES OF HOME BOYS REACH GEORGIA

Parts of First, Third and Sixth Regiments Now in Augusta

EXPECT OTHERS AT ONCE

With Arrival of Anticipated Sections of Third and Sixth, Division Will Be Complete

CAMP HANCOCK, Augusta, Ga., Sept. 14.

Sections of the First, Third and Sixth Regiments had detrained here this morning before 11 o'clock.

At 8:30 o'clock the first section of the Third Infantry drew in carrying the supply, machine-gun and headquarters companies.

The division will then be complete. The delay in transit, Colonel Brown said, was due to minor accidents.

When Columbia, S. C., was reached by the section which should have been riding, that in which Colonel Brown was riding, military regulations required that the trains be halted until the section carrying the commander of the regiment obtained the lead on the journey to camp.

This consumed time and, as nothing was known of the train's progress, officers in charge of detraining were forced to maintain constant watch at the detraining station from midnight till dawn.

Shortly after 6 o'clock the troop train passed through Augusta, slowly proceeding toward Waynes Station.

While no definite information was at hand, it is felt certain that the third section of the regiment from Philadelphia will arrive in camp before the end of the day.

When they do arrive, Pennsylvania's Twenty-eighth Army Division will be complete in the field.

There was a special observance of Flag Day this afternoon, under orders from Major General Clement.

CAMP EDGE SOLDIERS WAIT WITH PATIENCE

Calmly Return to Routine Labors Pending Delay in Moving Southward

CAMP EDGE, Sea Girt, N. J., Sept. 14.

The First Field Artillery, the hospital corps and signal corps, which were to have left for Annapolis tomorrow, have settled down again to the routine of camp life.

At the same time leave early Sunday morning and the only reason the Jersey boys are not going with them, as first planned, is that the transportation companies are handling so many troops this week they couldn't get sleeping cars in which to move them.

The names of sixteen men who failed to pass the heart and lung test administered a few days ago by army physicians from Governors Island were posted this morning by Colonel Galpin.

SWEDISH-AMERICAN MUST EXPLAIN PACIFIST LETTER

Wealthy Chicagoan and Treasurer of People's Council Taken Before U. S. Authorities

CHICAGO, Sept. 14.—While the Swedish element of Chicago, individually and in societies, Wilson and the government, Theodore H. Lunde, wealthy Swedish-American, was taken before the Department of Justice to explain "something" in connection with the People's Council of America for Democracy and Terms of Peace.

Lunde is treasurer of the People's Council and also is president of the American Industrial Company, manufacturer of paper mills. It was the People's Council which recently held a meeting in Chicago in defiance of Governor Lowden and in favor of Mayor Thompson.

The initial issue of The People's Council, ostensibly emanating from Washington, made its appearance in Chicago. It was said today that, although rushed, they are still open to handle shipments.

It is said the present condition of affairs is due, principally, to the abnormal volume of exports business and the general insufficiency of terminal and other facilities.

At the offices of the Adams and the Wells- Fargo Express Companies it was said today that, although rushed, they are still open to handle shipments.

Heat Your Curling Irons Instantly

—on train, on boat, in hotels, in camp, on motor trips, or at home, you can heat your "curlers" instantly, and without soot to soil your hair or your clothing.

Theroz FUEL CUBES

Cost About a Cent a Cube —used in the Theroz Patented Burner (specially designed to hold curling irons, sad irons and cooking utensils,) give you the quickest, safest, cleanest, most convenient and most economical heat ever discovered.

Theroz is made by an absolutely new and patented process, which converts a liquid into a solid cube (not a paste). The cube itself does not burn, but throws off a vapor which unites with the oxygen of the air in right proportions to make the hottest flame known to science.

SAFEST—Theroz can't explode. It can't spill and set fire to anything. A burning cube dropped on the carpet can be smothered without burning the carpet.

CONVENIENT—You can tuck a can of Theroz Fuel Cubes and a Theroz Burner in a corner of your bag and have it available anywhere.

ECONOMICAL—Because it costs about a cent a cube and you burn only enough to heat what you want heated. If it doesn't require a whole cube blow it out and put it back in the can for future use.
